EDUCATION

Brandeis University, Waltham, MA

Expected May 2026

Candidate for BS Computer Science, BA Music (Comp & theory), Minor in Mathematics

3.956 Cumulative GPA (As of June '25)

Courses: Distributed Systems, Operating Systems, Intro to AI, Intro to Machine Learning, Discrete Structures, Computer Networking*, Adv. Calc & Fourier Analysis*, Music Theory 1-4, Math & Music

*To be completed Fall 2025

KEY SKILLS

Technical Skills: JUCE, C++, Python, Max/MSP, Javascript/Typescript, Go, Audio Plugin Development, Computer Vision, Arduino, Unreal/VR, R, Selenium

Music Technology & Production: Ableton, Logic, Musescore, Max/MSP, Live Sound, Studio Recording, Mixing, Studio Building, Dante A/V, DMX lights (Fiilex, Martin)

Videography: Cameras (Canon DSLR, Sony A7iv, Sony FX6), Lighting, Color Grading, Gimbles, See [visual portfolio](#)

CURRENT WORK

Support & Training Specialist, Brandeis Sound and Image Media Studios (SIMS) August 2024 - Current

- Train students to use cameras, lighting equipment, sound equipment, as well as SIMS sound and film studios.
- Run or assist recording studio sessions using our Midas mixer and Dante A/V.
- Manage checkout service for the SIMS cage of cameras, lights, sound equipment, and instruments.
- Assist students and staff with audio or video recording, animating, and editing as well as graphic design.

Student Production Services Coordinator, Brandeis University

November 2023 - Current

- Set up, run, and break down sound and light systems for campus events.
- Coordinate workers and equipment for events; talk directly with clients.

SELECTED PROJECTS

Fourier Outline CamSynth, Adventures in American Music Research Fellowship

May 2025 - Current

- Built a new instrument out of self-designed 3D printed & laser cut materials, a webcam, OpenCV, and JUCE.
- The synth takes the fourier series of rotating arrows tracing an outline and translates it into audio in real time.
- Videos and pictures are available in my [project portfolio](#).

INTERNSHIPS

Support & Training Specialist, Brandeis Sound and Image Media Studios (SIMS)

Summer 2025

- Built out the "Flex Studio," a newly renovated studio. Included selecting, installing, and testing hardware
- Created trainings for light/camera equipment and workshops for Adobe products and Logic/Ableton
- Designed promotional materials, seen in my graphics portfolio.

Project and Contracting Intern, TSP Smart Spaces

Summer 2024

- Prototyped Revit mixed reality integration for the Apple Vision Pro through Unreal Engine.
- Assembled racks including UPSs, switches, patch panels, firewalls, amps, etc.
- Installed and configured hardware in homes including TVs, sound systems, Lutron lights and shades, etc.

Data Science Intern, Olin Satellite+Spectrum Technology & Policy (OSSTP)

Summer 2023

- Developed code to scrape spacecraft license information from websites and PDFs and graphed using R
- Assisted in setting up the software side of a UHF satellite ground station at Olin College.

MISCELLANEOUS

Music Producer, Personal

Jan 2020 - Current

- Produce mainly jazz-pop and electronic music under the artist name "Sound Wave Bits"
- Demo reel available in my [music portfolio](#)

Electronic-Digital Instrument (EDI) Player, Personal

May 2021 - Current

- Play an instrument consisting of midi controllers, an audio interface, and a computer with synths and virtual instruments. Performances often consist of vocals over live looping

Music Director, Brandeis Voicemale Acapella

Aug 2022 - Current

- Experience singing, arranging sheet music, teaching others, leading rehearsals, recording and mixing, etc.
